A beautiful view at Metz Farm, where this sale is to be held.

This is the start of what we hope will be an annual event. The owners of the five herds participating in this sale all have similar aims and objectives. We all started with the right kind of individuals and the right kind of pedigrees. Herd bulls of highest quality have been used, rigid culling programs have been followed, and each owner has added new blood annually in the form of royally bred, carefully selected females. Every calf born on these five farms has had full opportunity for proper development and the health of each herd has been guarded with greatest care.

Although the five herds were of modest size at the start, they are now large and, in my opinion, the tops will compare favorably with those from any five herds located in an area of similar size. It is our intent to bring our better productions together each year in this sale. We have all been heavy buyers of Mathers-bred and Mathers imported cattle and all five consignments contain a liberal number of their descendants.

We believe the cattle will speak for themselves on sale day. Speaking for all of my associates, I bid you welcome.

THORP METZ.

Here is the kind you will find in the Elmcrest Herd from which a strong consignment has been drawn for this sale.

## Terms and Conditions

**Health**—The five herds participating in this sale are all under Federal supervision for Tuberculosis. A 60 day retest for Tuberculosis will be allowed. Calfhood vaccination for Bang's is also practiced in all five herds. Health certificates will be furnished that comply with the rigid health regulations of the State of Illinois.

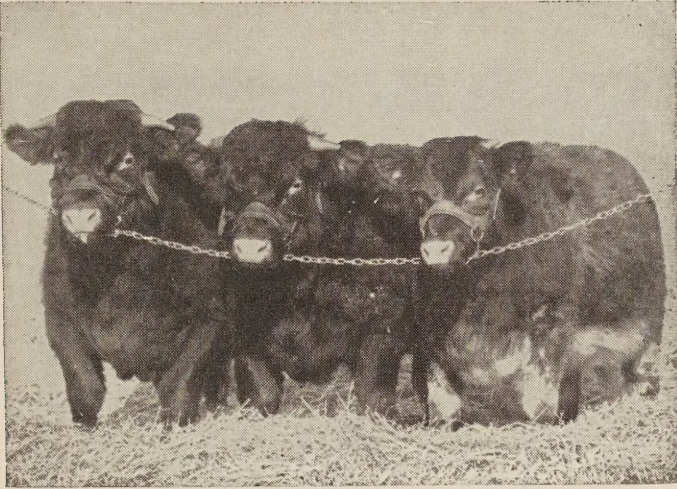

**Guarantee**—All cattle will be sold under the standard guarantee adopted by the American Shorthorn Breeders' Association. This guarantee, printed in full elsewhere in this catalog, will form a contract between the buyer and seller of each lot. The sale manager was retained for sale promotion purposes only and is in no way responsible for the fulfillment of guarantees. Certificates of registry and transfer will be furnished with each lot sold. Shipment will be made as soon as possible after the close of the sale without trouble to the purchasers, but cattle will be at buyers' risk as soon as bid off. Every precaution will be taken to see that animals arrive in sound and healthy condition.

**Terms**—The terms of this sale are cash unless arrangements are made in advance. All settlements must be made with the clerk of the sale immediately at the conclusion of the auction and before the animals are removed.

**Liability**—The above guarantee and terms shall constitute a contract between the seller and the buyer of each lot. Neither the clerk of the sale, nor the individual designated as Sale Manager assumes any liability, legal or otherwise. Where footnotes appear in this catalog they were furnished by the owner. We will not be responsible for any accidents that may occur, but will make every effort to provide for the comfort and safety of our guests.

**Inquiries About Cattle Listed**—The sale manager will gladly answer, to the best of his ability, any question which may arise in the minds of prospective buyers concerning the breeding and quality of any animals listed in the catalog. Such correspondence should be addressed to Hal Longley, Sale Manager, 16 S. Locust St., Aurora, Ill.

First prize junior get-of-sire at the 1950 National Shorthorn Show in Memphis, Tennessee. Sons and daughters of the 1948 International grand champion, Kelburn Banker Royal.

## A word from the Sale Manager

It has been a pleasure to work with the owners of these five herds in arranging this sale. Although they are a friendly gang of very good cattlemen, so eager were they to get this annual sale started on the right foot that a spirit of rivalry developed to see which could supply the best. The result . . . an exceptionally good sale offering, well worthy of the attention of critical buyers.

I wish more sales of this kind could be developed, sales containing the better production of these herds that are strong in quality and pedigree yet not limited in numbers. This is a natural sale for you to attend because it occurs on the day following the Mathers sale and because the right kind of Shorthorns are being offered by the right kind of men.

HAL LONGLEY  
of The Shorthorn World.

MF Rainey—A son of Cruggleton Rainey, the top selling Shorthorn bull of 1953, now owned jointly by Scofield Ranch and U. R. Bronk of Texas. He is out of one of our best imported cows, a granddaughter of Millhills Champion, and we have used him some. Study this pedigree as there are a lot of great breeding bulls behind this calf.

MF Elvin's Type—We should keep this bull because he seems an ideal successor to Elvin's Heir. However, we have used him liberally and will have calves by him, hence we will sell him as an attraction. Be sure and look at his sire, his dam and half sisters, and half brother, Thruliner. His dam is a truly wonderful imported cow and the kind that many breeders would be proud to point out as the mother of his herd bull. Drynie Secret 31st was the top selling female in the 1950 Leveldale sale. This bull will sire the modern kind and we have never raised a thicker or shorter legged calf. Pretested and calfhood vaccinated.

His dam is a beautiful daughter of Beaufort Benbow, the outstanding son of Cruggleton Pentland Firth. Beaufort Benbow was used extensively at Uppermill and then sold to Col. Torrance Beardmore, Mono Mills, Ontario, to head his great Briardale herd. Morphie Leveldale was by Morphie Beau Geste, a great breeding son of Beaufort Bolido. LoMar Randolph—This bull has been used in the LoMar herd during the past six months. We have never shown him as he is out of the best breeding cow we own and therefore we felt we would like to have some calves out of him before he left the farm. We were unable to get a picture of him but he is the kind to watch.

# These cattle are improvers—

In planning our consignment to this sale, we dug deeply into our herd to supply the kind of cattle that we like to find ourselves in any sale that we have traveled far to attend. Having inspected the entire sale offering we know that our associates selected their consignments with equal care.

These cattle have been raised in the garden spot of the world, an area famous for black soil that contains a generous supply of limestone, potash and phosphate. This is vital in the development of good cattle since good health, thriftiness and breeding ability are dependent on a correct mineral balance.

We have confidence that each and every lot we are selling will return a rich dividend on the investment. There is an old saying that "it takes a live fish to swim upstream but any old log can float downstream." We must be alert to every opportunity for improvement. The cattle in this sale are improvers.

### AMERICAN SHORTHORN BREEDERS ASSOCIATION

1. Proper care must be give by purchaser to protect breeding qualities and health of guaranteed animals.
2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction of all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
5. All animals are sold to comply with the laws regulating Tuberculosis and Bangs disease of the state or county into which they may be shipped.
6. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.
7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off. Where cattle are sold at private treaty the above terms should apply as well as for sale at auction.

All animals sold in this sale will be backed by the above Standard Guarantee.

As a safeguard to prospective buyers, every animal has successfully passed clean abortion blood test within 30 days prior to the sale, or will have Certificates of Bang's Calfhood Vaccination, and those that are not from Accredited herds have passed a clean Tuberculin test within the same period. Health certificates will be provided with each lot sold.
